February Meeting, Chemist of the Year	February 12
March Meeting	TBA
April Meeting Student Awards Night	April 12

January Monthly Meeting
“It’s a Celebration”
Tuesday, January 14, 2014
Anderson Center
Community Meeting Room

Program:

5:30 – 6:30 Board meeting: large conference room
(immediately to the left as you enter)

6:30 – 7:30 registration: community meeting room (on
the right at the end of the entry atrium)

7:00 – 9:00 celebration with hors d’oeuvres and
drinks: community meeting room

In this issue

Letter from the chair:

If you missed the December meeting at Xavier, you missed a great time! To start the evening, Drs. Stefan France and Judson Haynes held a workshop for students. They talked about career development, graduate school applications, resumes and much more. Thanks also go to the many faculty advisors who joined this part of the meeting!

We all then headed to the social hour in the beautiful Conaton Board room, which was filled with our local chemists mixed with many of our regional chemistry students. It was great seeing so many of our section's youngest members joining us at this meeting! As always at the Xavier meeting, the atmosphere was festive with holiday decorations and the conversations were lively. We voted and approved the proposed bylaw changes at the start of dinner, had the pleasure to hear greetings by the *two* presidents from our section – Dr. Judson Haynes, president of NOBCCHE and Diane Schmidt, president-elect of the ACS. Following dinner we were treated to a fabulous presentation of organic chemistry by Dr. France. We're very grateful for Dr. France taking the time to travel here from Georgia Tech to spend so much time with us and our students.

Now on to our January meeting. I've often heard it said things happen for a reason and this must be one of those times. Just when I learned that my scheduled January speaker had to pull out for business travel conflicts, we learned that our very own **Diane Schmidt won the national election for ACS president-elect!** So after talking with several of you and working with Diane's busy schedule, we decided that our January meeting will be a celebration of Diane's accomplishments and her many contributions, both to our local section and to national ACS. There will be no formal chemistry talk, so please bring a guest and join us on Tuesday, January 14 at the Anderson Center where we will celebrate and honor Diane. We won't let breaking for a dinner interrupt our connections and conversations, so we will have hors d'oeuvres and drinks all evening, with special champagne cocktails to add to the festive occasion. Looking forward to seeing you all there!

Sincerely,
Diana

DIRECTIONS TO ANDERSON CENTER

Anderson Center is located in Anderson Township at 7850 Five Mile Road between Anderson Towne Center and Anderson Mercy HealthPlex. There is convenient free parking at the Anderson Center (with free overflow parking at the Anderson Center Station Park and Ride.)

From I-275

Exit at Exit 69, Five Mile Road. Turn North on Five Mile Road and go approximately 1.5 miles (crossing over Beechmont Avenue). After you pass the GHA Medical Building on your right, look for the right turn lane for Anderson Center. You will see a digital board near the roadside and a lake on the back side of the building. Turn in and parking is to the left and right.

From Beechmont Avenue

Turn North on Five Mile Road and go approximately .25 miles. After you pass the GHA Medical Buildings on your right, look for the right turn lane for Anderson Center. You will see a digital board near the roadside and a lake on the back side of the building. Turn in and parking is to the left and

Evaluate, Educate, Explore

March 2-6, 2014
Chicago, Illinois
www.pittcon.org

Pittcon is the leading conference and exposition for the latest advances in Laboratory Science. To enhance your Pittcon 2014 experience, we will be co-programming with The American Chemical Society's Division of Analytical Chemistry (ACS-DAC). Attend one of the many ACS-DAC sessions such as:

- Advances In Our Understanding of Complex Aerosols at the Individual Particle Level
- Analytical Advances in Clinical Diagnostics
- Chemometrics for Modeling and Analyzing Chemical Systems
- Interferometry in Chemistry, Biology and Medicine
- Lifelong Teaching and Learning in Separation Science

For more information on technical sessions, exhibitors and short courses, visit www.pittcon.org.
